# KEYWORD INDEX

## A

**Acid secretion** — The therapeutic control of acid secretion in gastric ulcer: a critical appraisal, 395

**Acute leukemia** — Randomized controlled study of chemoimmunotherapy with bestatin of acute nonlymphocytic leukemia in adults, 93

**Acute lymphoblastic leukemia** — A girl treated with growth hormone presenting with neuromyopathy as first sign of acute lymphoblastic leukemia, 287

**Acyclovir** — Acyclovir and postherpetic neuralgia, 455

**Adoptive allogeneic immunotherapy** — Can virostatic chemotherapy and/or adoptive allogeneic immunotherapy eradicate *in vivo* Friend's virus infection? 57

**Ageing** — Down-regulation of LAK cell-mediated cytotoxicity: cancer and ageing, 333

**AIDS** — Differential inhibition of the activities of reverse transcriptase and various cellular DNA polymerases by a traditional Kampo drug, *Sho-saiko-to*, 13 — *In vitro* immunomodulatory effects of traditional Kampo medicine (*Sho-saiko-to*: SST) on peripheral mononuclear cells in patients with AIDS, 17 — Kaposi's sarcoma in patients with AIDS: sex, transmission mode, and race, 461

**Airway diseases** — Respiratory effects of pollution, 443

**Alcohol** — Alcohol and conscious level, 205

**ALL-specific human serum** — Leukemia-specific serum from a child showing an immunofluorescent pattern distinct from J-5 monoclonal antibody directed for CD10 (common ALL antigen), 269

**Anaemia** — Chronic anaemia in an Irish gastroenterology unit: one hundred consecutive cases, 235

**Asthma** — Glucose metabolism and β–receptor function in atopic asthmatics, 47 — Neural control of airway mucus secretion, 447

**Atherosclerosis** — Heparin and atherosclerosis: an investigative report on the treatment of atherosclerosis, 303

**Atherosclerotic process** — Exploration of the atherosclerotic plaque, 343

## B

**Bestatin** — Hematopoietic and hematologic properties of bestatin in normal and cyclophosphamide myelosuppressed mice, 85 — Randomized controlled study of chemoimmunotherapy with bestatin of acute nonlymphocytic leukemia in adults, 93 — Double-blind trial of bestatin in HIV-positive patients, 475

**Bile acids** — Role of intracellular organelles in the hepatic transport of bile acids, 409

**Biotin** — Biotin for diabetic peripheral neuropathy, 511

**Blood stem cells** — New evaluations of circulating granulocyte and macrophage stem cells in healthy adults using conditioned media and recombinant human growth factors, 281

**Bone marrow cells** — Drug-induced agranulocytosis: bone marrow granulocytic progenitor cells, 181

**Bypass conduits** — Technical considerations in aortocoronary bypass grafting, 359

**Bypass surgery** — Continuous rt-PA infusion as a salvage strategy to maintain patency of the infarct artery; safety of high cumulative dose and subsequent emergency coronary artery angioplasty and bypass surgery, 185

## C

**Cancer** — Down-regulation of LAK cell-mediated cytotoxicity: cancer and ageing, 333

**CaPP crystals** — Inflammatory reactions induced by various calcium pyrophosphate crystals, 467

**Carcinogenesis** — The regulation of gene expression and the molecular basis of cancer, 195

**Cell culture** — Microexplants of human thymus: how do the thymic epithelial cells react to lymphocyte death? 109

**Cell cycle** — Peptide growth factors and cell cycle control, 103

**Cell lines** — Collateral drug sensitivity induced in CPT-11 (a novel derivative of camptothecin)-resistant cell lines, 209

**CFU-GM** — Hematopoietic and hematologic properties of bestatin in normal and cyclophosphamide myelosuppressed mice, 85

**Chemotherapy** — Mucocutaneous side effects of chemotherapy, 163

**Chest pain** — Chest pain, 353

**Children** — Rising cholesterol levels in children with familial hypercholesterolemia, 373

**Chronic disease** — Chronic anaemia in an Irish gastroenterology unit: one hundred consecutive cases, 235

**Chronic uremia** — T lymphocyte subsets in chronic uremic patients treated with maintenance hemodialysis, 53

**Clearance** — Comparison of creatinine and inulin clearances in multiple trauma, 175

**Collateral sensitivity** — Collateral drug sensitivity induced in CPT-11 (a novel derivative of camptothecin)-resistant cell lines, 209

**Colony promoting activity** — Colony promoting activity: differences from interleukin-3 and similarities to interleukin-6, 135
**Colorectal cancer** — Plasma oxypurines in gastric and colorectal cancer, 403
**Common ALL antigen** — Leukemia-specific serum from a child showing an immunofluorescent pattern distinct from J-5 monoclonal antibody directed for CD10 (common ALL antigen), 269
**Conscious level** — Alcohol and conscious level, 205
**Coronary bypass surgery** — Technical considerations in aortocoronary bypass grafting, 359
**CPT-11** — Collateral drug sensitivity induced in CPT-11 (a novel derivative of camptothecin)-resistant cell lines, 209
**Creatinine** — Comparison of creatinine and inulin clearances in multiple trauma, 175
**Crosslinking** — Biologic activities of HIV-1 envelope glycoprotein: the effects of crosslinking, 5
**Cultures** — New evaluations of circulating granulocyte and macrophage stem cells in healthy adults using conditioned media and recombinant human growth factors, 281
**Cutaneous side effects** — Mucocutaneous side effects of chemotherapy, 163
**Cyclophosphamide** — Cyclophosphamide in the male rat: cerebral biochemical changes in progeny, 519

D

**ddGTP** — Utilization of 2', 3'-dideoxyguanosine 5'-triphosphate as an inhibitor and substrate for DNA polymerase α, 115
**Decosahexaenoic acid** — Fish oil: a panacea? 169
**Dexamethasone** — Effect of dexamethasone on IL-1 and IL-3-LA release by unstimulated human mononuclear cells, 515
**Diabetes mellitus** — Changes in glycosylated proteins in long-term complications of diabetes mellitus, 229 — Biotin for diabetic peripheral neuropathy, 511
**Diabetic peripheral neuropathy** — Biotin for diabetic peripheral neuropathy, 511
**Diagnosis** — Rising cholesterol levels in children with familial hypercholesterolemia, 373
**Diagnostic** — Chest pain, 353
**Digestive carcinoma** — Indications of endoscopic ultrasonography of the digestive tract, 503
**DNA polymerase α** — Utilization of 2', 3'-dideoxyguanosine 5'-triphosphate as an inhibitor and substrate for DNA polymerase α, 115
**DNA topoisomerase II** — Isolation and characterization of VP-16 resistant human leukemia cell line, 35 — Reduced DNA topoisomerase II in VP-16 resistant mouse breast cancer cell line, 41
**Dosimetry** — Pharmacokinetics and tissue distribution of $^{99m}$Tc-labelled enoxaparin in the rat: evaluation of dosimetry parameters, 317
**Drug resistance** — Isolation and characterization of VP-16 resistant human leukemia cell line, 35 — Reduced DNA topoisomerase II in VP-16 resistant mouse breast cancer cell line, 41

E

**Eicosapentaenoic acid** — Fish oil: a panacea? 169
**Elliptinium** — Virostatic *in vivo* effect of elliptinium on Friend's retrovirus (a model for HIV infection), 1
**Emergency** — Alcohol and conscious level, 205
**Endoscopic ultrasonography** — Indications of endoscopic ultrasonography of the digestive tract, 503
**Enkephalin** — Leu-enkephalin induced alteration of enzymes and sialic acid levels *in vivo*, 123
**Enzymes** — Leu-enkephalin induced alteration of enzymes and sialic acid levels *in vivo*, 123
**Epidemiology** — Kaposi's sarcoma in patients with AIDS: sex, transmission mode, and race, 461
**Epithelial cells** — Microexplants of human thymus: how do the thymic epithelial cells react to lymphocyte death? 109
**Ethambutol** — Ethambutol in tuberculosis, 21
**Ewing's sarcoma** — Present trends in treatment of Ewing's sarcoma, 249
**Extrahepatic cholestasis** — Indications of endoscopic ultrasonography of the digestive tract, 503

F

**Familial hypercholesterolemia** — Rising cholesterol levels in children with familial hypercholesterolemia, 373
**Fatality** — Mortality and fatality of cutaneous malignant melanoma in Sweden, 1982–1986, 495
**Fish oil** — Fish oil: a panacea? 169
**Fluorine** — Chronic fluorine poisoning in man: a review of literature in English (1946–1989) and indications for research, 417
**French influence** — French influence on the development of medicine in Louisiana, 147
**Friend's virus** — Virostatic *in vivo* effect of elliptinium on Friend's retrovirus (a model for HIV infection), 1 — Can virostatic chemotherapy and/or adoptive allogeneic immunotherapy eradicate *in vivo* Friend's virus infection? 57

G

**Gastric cancer** — Plasma oxypurines in gastric and colorectal cancer, 403
**Gastric ulcer** — The therapeutic control of acid secretion in gastric ulcer: a critical appraisal, 395
**Gene regulation** — The regulation of gene expression and the molecular basis of cancer, 195
**Genetics** — Chronic fluorine poisoning in man: a review of literature in English (1946–1989) and indications for research, 417
**Gills** — The gill lipids of spawning Pacific salmon, 131
**Glibenclamide** — Reduced glucose-6-phosphorylase and NADPH generating enzyme activities associated with glibenclamide induced hypoglycemia and hypoinsulinemia in genetically obese mice, 307

**Glucose metabolism** — Glucose metabolism and β-receptor function in atopic asthmatics, 47
**Glycoproteins** — Changes in glycosylated proteins in long-term complications of diabetes mellitus, 229
**Graft patency** — Technical considerations in aortocoronary bypass grafting, 359
**Graft-*versus*-host disease** — Thalidomide in the treatment of graft-*versus*-host disease, 199
**Granulopoiesis** — Drug-induced agranulocytosis: bone marrow granulocytic progenitor cells, 181 — Distribution of IL-3 activity in mice transplanted with IL-3 producing T cells (STIL-3): abrogation of the distribution of STIL-3 cells into the liver and liver hemopoiesis by splenectomy, 429
**Growth factors** — Growth factors and oncogenes in human solid tumors: clinical aspects, 25
**Growth hormone deficiency** — A girl treated with growth hormone presenting with neuromyopathy as first sign of acute lymphoblastic leukemia, 287

H

**Hematopoiesis** — Hematopoietic and hematologic properties of bestatin in normal and cyclophosphamide myelosuppressed mice, 85
**Hemodialysis** — T lymphocyte subsets in chronic uremic patients treated with maintenance hemodialysis, 53
**Heparin** — Heparin and atherosclerosis: an investigative report on the treatment of atherosclerosis, 303
**Hepatic transport** — Role of intracellular organelles in the hepatic transport of bile acids, 409
**Herpes zoster** — Acyclovir and postherpetic neuralgia, 455
**HIV therapy** — Double-blind trial of bestatin in HIV-positive patients, 475
**HIV-1 envelope protein** — Biologic activities of HIV-1 envelope glycoprotein: the effects of crosslinking, 5
**Hodgkin's disease** — Proliferative activity, lectin-dependent and natural cytotoxicity in blood, lymph node and spleen from patients with Hodgkin's disease, 365
**Host defense** — Neutrophil dysfunctions in sickle cell disease, 153
**Hypofertility** — Effect of urogenital infections on sperm parameters and hypofertility in man, 225

I

**IgA nephritis** — Primary IgA nephropathies in children, 159
**IL-2 receptor** — Autologous tumor-specific cytotoxic T-lymphocytes in a child with neuroblastoma, 487
**IL-3** — Distribution of IL-3 activity in mice transplanted with IL-3 producing T cells (STIL-3): abrogation of the distribution of STIL-3 cells into the liver and liver hemopoiesis by splenectomy, 429
**IL-3-LA** — Effect of dexamethasone on IL-1 and IL-3-LA release by unstimulated human mononuclear cells, 515
**IL-3 producing T cell line** — Distribution of IL-3 activity in mice transplanted with IL-3 producing T cells (STIL-3): abrogation of the distribution of STIL-3 cells into the liver and liver hemopoiesis by splenectomy, 429
**Immunodepression** — Treatment with interleukin-2 in an immunodepressed state, 263
**Immunomodulation** — Immune response of stressed rats treated with drugs affecting serotoninergic and adrenergic transmission, 381 — Double-blind trial of bestatin in HIV-positive patients, 475
**Immunoreactivity** — Proliferative activity, lectin-dependent and natural cytotoxicity in blood, lymph node and spleen from patients with Hodgkin's disease, 365
**Immunotherapy** — Randomized controlled study of chemo-immunotherapy with bestatin of acute nonlymphocytic leukemia in adults, 93
**Inhaled corticosteroids** — Adverse effects of inhaled corticosteroids, 421
**Intracellular organelles** — Role of intracellular organelles in the hepatic transport of bile acids, 409
***In vitro*** — ***In vitro*** immunomodulatory effects of traditional Kampo medicine (*Sho-saiko-to*: SST) on peripheral mononuclear cells in patients with AIDS, 17
**Infarction** — Continuous rt-PA infusion as a salvage strategy to maintain patency of the infarct artery; safety of high cumulative dose and subsequent emergency coronary artery angioplasty and bypass surgery, 185
**Interleukin-2** — Treatment with interleukin-2 in an immunodepressed state, 263
**Interleukin-3** — Colony promoting activity: differences from interleukin-3 and similarities to interleukin-6, 135 — New evaluations of circulating granulocyte and macrophage stem cells in healthy adults using conditioned media and recombinant human growth factors, 281
**Interleukin-6** — Colony promoting activity: differences from interleukin-3 and similarities to interleukin-6, 135
**Inulin** — Comparison of creatinine and inulin clearances in multiple trauma, 175
**Iron deficiency** — Chronic anaemia in an Irish gastroenterology unit: one hundred consecutive cases, 235
**Irritable bowel syndrome** — Altered skin temperature and electromyographic activity in the irritable bowel syndrome, 399
**Isoenzyme** — Alteration in isoenzyme patterns of serum galactosyltransferase activity in ovarian cancer patients: preliminary results, 325

J

**J-5** — Leukemia-specific serum from a child showing an immunofluorescent pattern distinct from J-5 monoclonal antibody directed for CD10 (common ALL antigen), 269

K

**Kaposi's sarcoma** — Kaposi's sarcoma in patients with AIDS: sex, transmission mode, and race, 461

L

**LAK cells** — Down-regulation of LAK cell-mediated cytotoxicity: cancer and ageing, 333
**Lectin-dependent cytotoxicity** — Proliferative activity, lectin-dependent and natural cytotoxicity in blood, lymph node and spleen from patients with Hodgkin's disease, 365
**Limb salvage** — Results of multidisciplinary limb salvage in 240 consecutive bone sarcomas, 217
**Louisiana** — French influence on the development of medicine in Louisiana, 147

M

**Macrophages** — Inflammatory reactions induced by various calcium pyrophosphate crystals, 467
**Male rat mutation** — Cyclophosphamide in the male rat: cerebral biochemical changes in progeny, 519
**Malignant melanoma** — Mortality and fatality of cutaneous malignant melanoma in Sweden, 1982–1986, 495
**Medicine** — French influence on the development of medicine in Louisiana, 147
**Monoclonal antibody** — The possibility of applying a monoclonal tumor-restricted antibody in cytologic diagnosis of lung cancer in serous effusions, 277 — The biological approach to radioimmunoscintigraphy, 295
**Mononuclear cells** — Effect of dexamethasone on IL-1 and IL-3-LA release by unstimulated human mononuclear cells, 515
**Mortality** — Mortality and fatality of cutaneous malignant melanoma in Sweden, 1982–1986, 495
**Motility of spermatozoa** — Effect of urogenital infections on sperm parameters and hypofertility in man, 225
**Mucus** — Neural control of airway mucus secretion, 447
**Multidisciplinary treatment** — Osteogenic osteosarcoma: a model of curable disease by multidisciplinary approach of treatment, 243 — Present trends in treatment of Ewing's sarcoma, 249
**Muscle tension** — Altered skin temperature and electromyographic activity in the irritable bowel syndrome, 399
**Myelodysplastic syndrome** — Pathobiology of myelodysplastic syndromes, 69
**Myelosuppression** — Hematopoietic and hematologic properties of bestatin in normal and cyclophosphamide myelosuppressed mice, 85

N

**NADPH production** — Reduced glucose-6-phosphorylase and NADPH generating enzyme activities associated with glibenclamide induced hypoglycemia and hypoinsulinemia in genetically obese mice, 307
**Natural cytotoxicity** — Proliferative activity, lectin-dependent and natural cytotoxicity in blood, lymph node and spleen from patients with Hodgkin's disease, 365
**Neonatal herpes** — Screening pregnant women for genital herpes, 257
**Neoplastic cell** — The possibility of applying a monoclonal tumor-restricted antibody in cytologic diagnosis of lung cancer in serous effusions, 277
**Neuroblastoma-specific CTL** — Autologous tumor-specific cytotoxic T-lymphocytes in a child with neuroblastoma, 487
**Neuromyopathy** — A girl treated with growth hormone presenting with neuromyopathy as first sign of acute lymphoblastic leukemia, 287
**Neuropeptides** — Neural control of airway mucus secretion, 447
**Neutrophil function** — Neutrophil dysfunctions in sickle cell disease, 153

O

**Obese mice** — Reduced glucose-6-phosphorylase and NADPH generating enzyme activities associated with glibenclamide induced hypoglycemia and hypoinsulinemia in genetically obese mice, 307
**Oncogenes** — Growth factors and oncogenes in human solid tumors: clinical aspects, 25
**Oncogenesis** — The regulation of gene expression and the molecular basis of cancer, 195
**Osteogenic osteosarcoma** — Osteogenic osteosarcoma: a model of curable disease by multidisciplinary approach of treatment, 243
**Ovarian cancer** — Alteration in isoenzyme patterns of serum galactosyltransferase activity in ovarian cancer patients: preliminary results, 325
**Oxygen** — Pulmonary toxicity of oxygen, 435
**Oxypurines** — Plasma oxypurines in gastric and colorectal cancer, 403

P

**Pathobiology** — Pathobiology of myelodysplastic syndromes, 69
**Peptide growth factors** — Peptide growth factors and cell cycle control, 103
**Pharmacokinetics** — Pharmacokinetics and tissue distribution of $^{99m}$Tc-labelled enoxaparin in the rat: evaluation of dosimetry parameters, 317
**Phospholipids** — The gill lipids of spawning Pacific salmon, 131
**Pleurisies** — Inflammatory reactions induced by various calcium pyrophosphate crystals, 467
**Pollution** — Respiratory effects of pollution, 443
**Polymorphonuclear leukocyte** — Inflammatory reactions induced by various calcium pyrophosphate crystals, 467
**Postherpetic neuralgia** — Acyclovir and postherpetic neuralgia, 455

**Prevention** — Chronic fluorine poisoning in man: a review of literature in English (1946-1989) and indications for research, 417
**Progeny abnormality** — Cyclophosphamide in the male rat: cerebral biochemical changes in progeny, 519

R

**Radioimmunoscintigraphy** — The biological approach to radioimmunoscintigraphy, 295
**β-Receptors** — Glucose metabolism and β−receptor function in atopic asthmatics, 47
**Reverse transcriptase inhibitor** — Differential inhibition of the activities of reverse transcriptase and various cellular DNA polymerases by a traditional Kampo drug, *Sho-saiko-to*, 13
**RFLPs** — Rising cholesterol levels in children with familial hypercholesterolemia, 373
**Risk factor** — Exploration of the atherosclerotic plaque, 343
**rt-PA** — Continuous rt-PA infusion as a salvage strategy to maintain patency of the infarct artery; safety of high cumulative dose and subsequent emergency coronary artery angioplasty and bypass surgery, 185

S

**Salmon** — The gill lipids of spawning Pacific salmon, 131
**Sarcoma** — Results of multidisciplinary limb salvage in 240 consecutive bone sarcomas, 217
**Schönlein-Henoch purpura** — Primary IgA nephropathies in children, 159
**Screening** — Screening pregnant women for genital herpes, 257
**Semen cultures** — Effect of urogenital infections on sperm parameters and hypofertility in man, 225
**Serotonin** — Immune response of stressed rats treated with drugs affecting serotoninergic and adrenergic transmission, 381
**Serous effusion** — The possibility of applying a monoclonal tumor-restricted antibody in cytologic diagnosis of lung cancer in serous effusions, 277
**Serum galactosyltransferase** — Alteration in isoenzyme patterns of serum galactosyltransferase activity in ovarian cancer patients: preliminary results, 325
***Sho-saiko-to*** — Differential inhibition of the activities of reverse transcriptase and various cellular DNA polymerases by a traditional Kampo drug, *Sho-saiko-to*, 13 — *In vitro* inmunomodulatory effects of traditional Kampo medicine (*Sho-saiko-to*: SST) on peripheral mononuclear cells in patients with AIDS, 17
**Sialic acid** — Leu-enkephalin induced alteration of enzymes and sialic acid levels *in vivo*, 123
**Sickle cell disease** — Neutrophil dysfunctions in sickle cell disease, 153
**Skin temperature** — Altered skin temperature and electromyographic activity in the irritable bowel syndrome, 399
**Solid tumors** — Growth factors and oncogenes in human solid tumors: clinical aspects, 25
**Spasmophilia** — Vitamin D metabolites in spasmophilia, 479
**Stress** — Immune response of stressed rats treated with drugs affecting serotoninergic and adrenergic transmission, 381

T

**T lymphocytes** — T lymphocyte subsets in chronic uremic patients treated with maintenance hemodialysis, 53
**$^{99m}$Technetium-enoxaparin** — Pharmacokinetics and tissue distribution of $^{99m}$Tc-labelled enoxaparin in the rat: evaluation of dosimetry parameters, 317
**Therapeutic control** — The therapeutic control of acid secretion in gastric ulcer: a critical appraisal, 395
**Thalidomide** — Thalidomide in the treatment of graft-*versus*-host disease, 199
**Therapy** — Treatment with interleukin-2 in an immunodepressed state, 263
**Thymus** — Microexplants of human thymus: how do the thymic epithelial cells react to lymphocyte death? 109
**Toxicity** — Ethambutol in tuberculosis, 21 — Pulmonary toxicity of oxygen, 435
**Tuberculosis** — Ethambutol in tuberculosis, 21
**Tumor imaging** — The biological approach to radioimmunoscintigraphy, 295

U

**Ultrasonic nebulizer** — Heparin and atherosclerosis: an investigative report on the treatment of atherosclerosis, 303

V

**Virostatic chemotherapy** — Can virostatic chemotherapy and/or adoptive allogeneic immunotherapy eradicate *in vivo* Friend's virus infection? 57
**Virostatic effect** — Virostatic *in vivo* effect of elliptinium on Friend's retrovirus (a model for HIV infection), 1
**Vitamin D, 25-hydroxyvitamin D** — Vitamin D metabolites in spasmophilia, 479
**VP-16** — Isolation and characterization of VP-16 resistant human leukemia cell line, 35 — Reduced DNA topoisomerase II in VP-16 resistant mouse breast cancer cell line, 41
